

New publication

On the occasion of the celebration of the 375th anniversary of the arrival of the Demers ancestors in Nouvelle-France, we have prepared a small book, which was written by Alain Demers, and available back to back, in both French and English. Our ancestor, Jehan Dumay, briefly narrates his own story as well as the settlement of his three sons Étienne, André and Jean. He also introduces the first generation of his grandchildren, born here, with their spouses and tells us where they settled.

The book, with a preface by Rock Demers, well known film producer in Quebec, will be launched at our annual gathering of **July 6 and 7, 2019**, in St-Romuald. A bilingual paper version will be available as well as a French **OR** English version, in PDF format on a USB key.

To review all the articles we wrote over the years, all the publications of "l'Arbre du Mai" to date will be available on a USB key.

The book could provide a base for your own personal story. I encourage you to make this a family project.

Because we offer this product in various formats we wish to evaluate which one you prefer so we can order the adequate quantity from the printer.

RSVP before June 10 at: info@famillesdemers.org
